

Parent Information on Students Enrichment Opportunities

Save for reference

Parents, please consider these unique and varied classes, and activities for students with the need to learn more, participate outside of school, and pursue particular interests. Contact them for the most recent information and to get on their mailing lists.

The Wisconsin Dept. of Public Instruction and the UW system have teamed together to provide parent with information on all enrichment opportunities being offered through the university extensions in summer and all year round.

The [Precollege Program Directory Online](#) allows you to search by grade, location and topic for anything from basketball to computer camp, art, music, cheerleading, study skills and many other interests. There are sessions available from pre-kindergarten through high school.

Go to <http://uwhelp.wisconsin.edu/precollege> to find what is available for you.

Compiled by CESA #1 and Arrowhead Area GT Coordinators
