

BOARD POLICY 821.1

SWALLOW SCHOOL DISTRICT
BOARD OF EDUCATION POLICY

DISTRICT QUESTIONNAIRES AND SURVEYS

The Board of Education, board appointed committees, the administration, and staff might from time to time seek information from parents of Swallow students and residents of the Swallow School District to assist in decision-making. All questionnaires and surveys must be approved prior to distribution to be recognized as district sponsored.

1. The Superintendent must approve questionnaires and surveys that seek information related to operations or educational programming (e.g. what type of computer platform is available in the home).
2. The Board of Education must approve questionnaires or surveys that seek opinion or evaluative responses (e.g. how comfortable are you with a program or personnel) and will be used in Board decision-making.

Responses to all district sponsored questionnaires and surveys are available as a public record.

APPROVED: April 17, 2002
